# MOHAMAD NOSRATI

## Software Engineer | Web Applications & Client Architecture

Tehran, Iran | mohamadnosratidev@gmail.com | +98 912 095 8305
Portfolio: mohamadnst.ir | GitHub: github.com/MohamadNosrati | LinkedIn: linkedin.com/in/mohamad-nosrati

## PROFESSIONAL SUMMARY

Software Engineer specialized in high-performance web engineering, with deep expertise in modern client-side architecture (React, Next.js, Micro Frontends, Turborepo) and solid mid-level backend skills (Node.js, Express, Laravel, PostgreSQL, REST APIs, API Gateway design). Experienced in resilient state management, real-time interfaces, cross-platform mobile apps (React Native) and production-grade design systems.

## TECHNICAL SKILLS

**Frontend:** JavaScript, TypeScript, React.js, Next.js, TanStack Query, Micro Frontends, React Hook Form, Jest, Webpack, Turbopack
**UI & Styling:** HTML5, Tailwind CSS, Material UI, Ant Design, Hero UI, Responsive Design, Framer Motion, ECharts, PWA
**State Management:** Redux Toolkit, Zustand, TanStack Query, Jotai, SWR
**Mobile:** React Native, Expo, PWA
**Backend:** Node.js, Express.js, REST APIs, API Gateway Design, PHP, Laravel
**Database:** PostgreSQL, SQL, MySQL, MongoDB, Mongoose, Redis
**Realtime:** Socket.IO, WebSockets, Push Notifications
**DevOps & Tooling:** Git, GitHub, GitLab, Git Flow, Monorepo, Turborepo, Docker, CI/CD, npm, pnpm, Yarn, PostHog
**Professional:** Problem Solving, Debugging, Code Review, System Design, Communication, Teamwork, Agile, Scrum, Time Management

## PROFESSIONAL EXPERIENCE

### Full Stack Developer | Motemayez
**June 2026 - Present**
*Full-time | Freelance*

- Build interactive React.js frontends backed by Express.js data services and PostgreSQL for reliable, transactional data management.
- Develop and maintain a centralized API Gateway connecting the frontend to backend services through a scalable multi-layer architecture.

**Projects:** student-assistant

### Front-End Developer & Technical Instructor | Ide Kavan
**Nov 2025 - Mar 2026**
*Full-time*

- Built enterprise modular interfaces and back-office portals using Micro Frontend patterns.
- Delivered hands-on training in Micro Frontend development, Docker and containerized workflows, and professional Git Flow practices.
- Taught AI fluency: prompt engineering, MCP servers, RAG and n8n.

**Projects:** Behtarino, Reval, Sms-MicroFrontend, Admin-Panel, Back-office

### Front-End Developer | Mobtakeran
**Mar 2025 - Nov 2025**
*Part-time*

- Developed cross-platform mobile and responsive web apps with React Native and Ant Design in a unified Turborepo monorepo.
- Improved data-fetching efficiency and client-side caching with SWR across high-traffic exam modules.

**Projects:** Mobedu

### Front-End Developer | Fannvaran Tosee Amn
**Nov 2025 - Mar 2026**
*Full-time*

- Designed lightweight client architectures with Zustand, TanStack Query and Axios to manage complex async state and REST integrations.
- Built data-capture forms and interactive dashboards using React Hook Form, Hero UI, Tailwind CSS and ECharts.

**Projects:** Confidential

### Full Stack Developer | Sarooj Contractor Company
**Mar 2023 - Apr 2023**
*Freelance*

- Maintained client dashboards, fixed state-management defects and built reusable component packages.

**Projects:** Sarooj

### Full Stack Developer | Doctorize Project
**Apr 2022 - Dec 2022**
*Freelance | LinkedIn-style professional platform*

- Built the backend with PHP Laravel (MVC, Eloquent ORM) and MySQL schema design; created dynamic Blade views and AJAX API routes.
- Implemented job queues, events and listeners, and transactional email notifications.

**Projects:** Confidential

## EDUCATION

**Amirkabir University of Technology (Tehran Polytechnic)** - Tehran, Iran
